

Tag Testing

The Electricity (Safety) Regulations 2010 states that businesses and organisations need to ensure the electrical fittings and appliances that they provide for the use of staff, visitors or the public are electrically safe. Talking Rubbish has a qualified tag tester that can check small electrical appliances and power tools for organisations and households to ensure they are safe to use.

Cost: \$6 per item (or other appropriate trade)

To use this service, please contact us on mefsc@mefsc.org.nz, or visit us at 16-18 Ferguson St, Mangere East.
